Kelly Galea is founder of Trinity Creative Partners LLC, a company helping creative entrepreneurs and business owners build and grow their businesses.

Prior to establishing Trinity Creative Partners, Kelly owned one of Central Florida's top interior design firms. After expanding operations and opening a retail design center, Kelly focused on opportunities to provide services and assistance to the design trade. It was then she discovered her true passion in helping other creative professionals grow their businesses and become more profitable with techniques and systems she used to grow her own firm.

This discovery was energizing to Kelly because it represents the perfect blend of her education, work and life experiences. Kelly received a formal business education in marketing management as well as in engineering studies, majoring in computer and information sciences. She then spent nearly 20 years in the corporate world consulting with Fortune 500 companies, providing marketing, business analysis, technology integration, and project management services.

Always drawn to more artistic endeavors throughout her life, while in these corporate jobs Kelly ran her own creative businesses at the same time. She's actually been an entrepreneur and small business owner since 1999!

She learned extremely valuable lessons from her business consulting days, working with hundreds of project stakeholders on visible, complex projects impacting hundreds of thousands of customers. Kelly has the ability to quickly assess a situation and come up with solutions, and effectively used processes and systems combined with technology to improve her clients' businesses and exceed their goals. When it comes to your business and ways you can improve your processes and grow, she is here to help with what to do and how to do it.

How does Kelly know what to do and how to do it? Education, experience, business acumen, tenacity, courage to fail and succeed, and passion! She took what she knows and quickly grew what was a 1-person design business 260%. In addition to that achievement, she led the accomplishment of the firm's 5-year plan in less than 3.

Kelly has a tremendous ability to connect with business owners and motivate them to action. Her main focus is helping creative entrepreneurs and small business owners achieve results. She shares effective strategies, tools and techniques for boosting their bottom line, providing simple, proven, step-by-step systems and programs.
